Landowner Field Day

Cedar Hill Nature Preserve

October 27, 2023

8:30 am - 1:00 pm

Cedar Hill Nature Preserve

12374 FM 2095, Gause, TX 77857

Field Day Activities:

- Learn about stages of habitat restoration, such as brush control and prescribed fire.
- See, and learn about, some of the tools used in restoration and management.
- Tour a property going through the Post Oak Savannah restoration process.
- Learn some native plants on the tour.
- Talk with experts about habitat restoration and wildlife management.

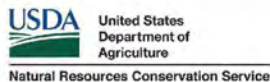

*Space is limited—
Reserve your spot today!*

Partners & Sponsors:

Logistics

Started advertising for the event 2 months ahead of time

Provided drinks/snacks, and a locally catered lunch afterwards to provide social time

46 landowners attended, along with 11 helpers (TPWD and partner staff, TMNs, etc.)

Divided the group into 2 and did a loop of the restoration area in opposite directions.

We had mapped out and planned 5 stops, for a total of 1.5 miles of walking, over 3-3.5 hours

UTVs on hand for folks who could not walk that far

Stop 1. Equipment, Forestry Mulcher

Stop 1. Equipment, Herbicide Application

Stop 2. Restored vs. Unrestored Site

Stop 3. Common Plants ID discussion

Stop 4. Prescribed Fire and Older Restoration Area
